PARTS & ACCESSORIES

Knobs X 4

Allen Key X 1

Screws X 2

Base X 2

Telescopic crossbar X 4

Supporting Pole - Top(L) X 1

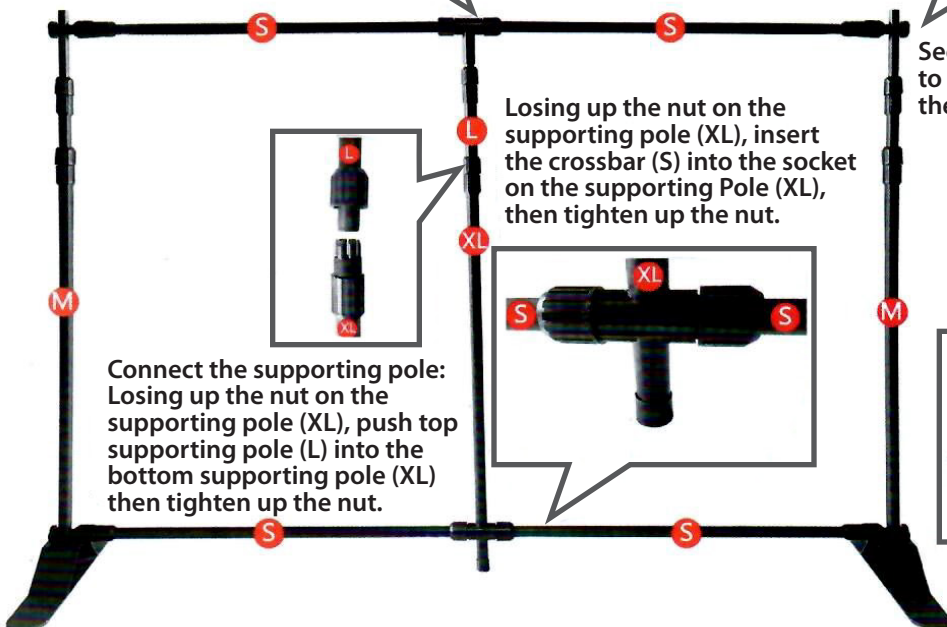

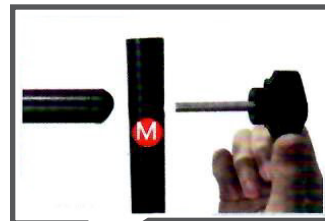

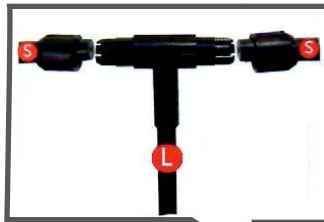

Telescopic Tube(M) X 2

Supporting Pole - Bottom (XL) X 1

Loosing up the nut on supporting pole(L), insert the crossbar(S) into the socket on the supporting pole(L), then tighten up the nut.

**Make sure the crossbar pushes deep into the socket to avoid any damage of the product while in use.*

Secure top and bottom crossbars (S) to upright telescopic tube(M) using the provided knobs.

Loosing up the nut on the supporting pole (XL), insert the crossbar (S) into the socket on the supporting Pole (XL), then tighten up the nut.

Connect the supporting pole: Loosing up the nut on the supporting pole (XL), push top supporting pole (L) into the bottom supporting pole (XL) then tighten up the nut.

Screw the telescopic tube(M) into the base by using the Allen key.
